

*ANNUAL REPORT OF THE WOMEN AND
GIRL CHILD CAPABILITIES ENHANCEMENT
AND EMPOWERMENT ORGANIZATION
(WGCCCEO) FOR THE PERIOD JANUARY 2015
-JANUARY 2016.*

PROMOTING THE EMPOWERMENT OF WOMEN THROUGH MOBILE TECHNOLOGY AND STEM GIRL-CHILD EDUCATION.

FOREWORD

Achieving the Sustainable Development Goals by year 2030 is vital for Nigeria as a nation-state to regain her rightful position in the League of Nations as her economic and social development are dependent on them. Two pivotal areas in the goal are promoting quality education and the economic empowerment of women- no nation can achieve quality development with these two goals and I am also of the perspective that the achievement of the other goals are dependent on these two.

STEM Girl Education is very important in the 21st century as it provides the child the unique opportunity to think critically while also developing her

innovative capabilities. In a time of huge importation of varying kinds of technological products into the Nigerian Market, quality STEM Education would ensure that the Nigerian child is able to use her innate ability to invent technology that would be highly relevant and beneficial to the Nigerian society and in the long run make it an attractive arena for investors. Women Empowerment through Mobile Technology is vital as it ensures women are able to communicate with the global world and gain strategies for improving themselves, their businesses and also their families leading to national development.

WGCCEE's activities in promoting these issues reflects her passion for the rapid development of Nigeria and the West African Sub-Region. I wish them more grease to their labor in their efforts in accelerating the development of Nigeria.

Thank –you

Ayoola Adetutu

Board Member -WGCCEEO

The Women and Girl Child Capabilities Enhancement and Empowerment Organization (WGCCEEO) is a not for profit organization legally registered in Nigeria with registration identification code – CAC/IT/N0.86980. Her mandates are-

- The empowerment of women at the grassroots through training in Web Literacy and Mobile Technology.
- The promotion of STEM (Science, Technology, Engineering and Mathematics) Girl Child Education.
- Carrying out advocacy on the need for the inclusion of Women and the Girl –Child in development policies as well as the need for Women and Girl-Child to develop their innate potentials.

During the period under review, the following was achieved by the organization:

- Granting of license by the Secondary School Education Board to establish STEM Girls' Club in Public Secondary Schools.
- Nomination of Founder/Chief Executive Officer for a leadership award.
- Signing of partnership agreement with a telecommunication company (ntel) to collaborate with the organization in training rural women on Mobile Technology and Web Literacy.
- Nomination of the organization by the United Nations Educational, Scientific and Cultural Organization (UNESCO) to facilitate in the programme – Development of Benchmark – Minimum Academic Standards (BMAS) for Gender and

Transformative Leadership As General Studies for Nigerian Universities.

➤ Commencement of STEM Girls' Club in Public Secondary Schools in Abuja Nigeria.

➤ Inauguration of STEM Ambassadors

➤ 30 rural women successfully completed training on Mobile Technology and Web Literacy.

In spite of organizational challenges (stepping stones) faced by the organization in the period under review, she remains undaunted and determined to press forward to do far better than was achieved in the reporting period.

Thank you.

Olumwatoyin Olabisi Oloruntola –Taino
Executive Director
